P. P. MAUÁ & Co.,
WILLIAM LESLIE.

MAUA BANK,

CALLE CANGALLO, Nos 101—103

The Offices of this Bank having been removed to the above spacious building, in order to suit the increasing flow of business, the public is informed that the following transactions are carried on in currency and specie in this Bank:—

First—Bills and obligations with good signatures are discounted on conventional terms.

Second—Money is advanced on mercantile and other securities approved of by the Manager.

Third—Accounts current are opened with Merchants or other parties who may prefer depositing endorsed and transferable securities, against which they may draw up to an amount previously convened under conditions established for such class of operations.

Fourth—Money is received in account current, bearing interest from day of deposit, which is accumulated in favor of the parties every three months, the depositors being allowed to retire at any time, by means of cheques, part or the full amount at their wish, save when the quantity exceeds three hundred doubloons or one hundred thousand dollars currency, in which case forty-eight hours' previous notice is required to be given at the Treasury of the Bank.

Fifth—Bills or letters of credit are drawn and taken on Montevideo, Rosario, Sta. Fé, Salto Oriental, Payssandu, Rio Janeiro, and other places in the Brazils, England and France, as also on other places of which notice will be given hereafter.

Finally, the Bank undertakes and executes all legitimate transactions within the orbit of banking operations.

The establishment is always open from 9 a m till 4 p.m.

GEORGE WILKS,
7 Calle Mayo.

Royal Insurance Company.
FIRE AND LIFE.
CAPITAL TWO MILLIONS STERLING.

This important company, in many respects the greatest of its kind in the present age, has appointed an agency in this city. The head-offices are in London and Liverpool with branches in Dublin, Edinburgh, Glasgow, Manchester, Bristol, Birmingham, Sheffield, Leeds, Newcastle, Southampton, Montreal, Toronto and other cities.

The ROYAL is remarkable; for the promptitude and liberality of its settlements: for the largest life bonuses (£2 per cent per annum) over continuously declared during 15 years by any Co.; for the enormous extent of its transactions, shewing £'00,000 in new life assurances for 1862, and a Fire revenue of £300,000 per annum; for its security, which has given rise to the proverb "as safe as the Royal;" for the accumulated funds in hand, over one million sterling; for its annual income, over half-a-million sterling; and for the correct calculation of its mortality tables. Hence the English press of all countries, including over 90 leading papers, speaks in the highest terms of this company.

The report for 1863 shews that all the property of the Co. amounting to £346,070 is real and substantial property;" the amount now exceeds one million sterling. The increase, during 14 years, on Fire business was 900 per cent, and on Life 1350 per cent.

MESSRS. H. A. GREEN AND Co. are authorised to issue policies for Fire and Life to a very large amount, at moderate premiums, the Co. being anxious to extend its foreign business, which already shews an annual revenue of £200,000. Life claims can be settled without reference to England. For further particulars please apply to

SUNDAY, NOVEMBER 6, 1864.

EDITOR'S TABLE.

Some Chilian papers assert that the distinguished prima donna, Mdme. Briol-Nicolai, is about to proceed to that country to give a series of performances: we understand this is incorrect, as she purposes enjoying "otium cum dignitate" for three or four months in one of our suburbs, and has made a new contract with Sig. Pestalardo for 12 months. All the lyric company have entered into new engagements here, except Messrs Walter and Celestino.

Parties from Rio Janeyro have come to the River Plate in quest of glass, as the Brazilian glaziers were unable to meet the demand after the late storm. The lot of 700 cases mentioned in Thursday's 'Pueblo' was sold to a dealer in transparencies, who had made heavy purchases in Montevideo.

We regret to hear of a shocking case, a sheep-farmer at Pilar killing his wife. The criminal appears to have been for some time in *delirium tremens* from drink. Some time ago a similar case occurred at Lobos, when the brutal husband was shot: in the present case, it is thought the plea of temporary insanity will save the perpetrator's life. The funeral of the unhappy victim took place on Wednesday evening. We have been requested to say nothing of the tragedy, but repeat our inability to conceal facts, however painful.

The Brazilian papers state that the first steamer of the new line from Liverpool and Falmouth to Rio Janeyro, Montevideo, and Valparaiso, will be despatched in January 1865. If the question of the Florida do not interrupt relations with the United States, we may also count next year upon the steam line from New York. We shall then have news from Europe once a week.

The steamer Payta, hourly expected in Montevideo, will bring us six days later news than the English packet to arrive next week, or three weeks later than we have at present. She was to leave Liverpool on the 15th October, and these Chilian liners usually make the trip to Montevideo in 23 days.

We are glad to hear that the steamer Paraguay will take home a good number of passengers: she leaves this port to-morrow, and Montevideo on Thursday, 10th inst. The Memnon (of the astronomical line) has arrived in Montevideo.

We have received a sample of seed-cotton from Curumbá: it is stained but of good fibre, and worth about half a real (3d.) per lb. Mr. Stevens (engineer) describes it as growing wild, but it is not 'gossypium silvestre.' The cotton in Malto Grosso is perennial, and the municipality of Curumbá lately cut down a tree in the Plaza which yielded 32 lb. every year.

The Goths and Huns seem to be wreaking their vengeance on the former palace of Rosas. A barbarian bricklayer has commenced walling up the handsome Byzantine arches which formed the graceful corridor around the building, and the "School of Art," as it is ironically termed, has the appearance of a lunatic asylum or distillery.

Fortunately the Congress did not abolish all our military bands. We read a decree of Gen. Paunero ordering music free-gratis for the citizens every evening in Plaza Victoria, from 7 to 9, and on the various promenades on all feast days: weather permitting.

A great sale of public lands will come off at Cordoba on the 1st, 2nd and 3rd prox. of seven lots, ranging from two to five leagues, situate near Frayle Muerto about ten leagues from the Argentine Railway route and the same distance from Fort Melincue, on the B. Ayrean frontier. The sales will be $1,500 to $2,000 Bolivian (£250 to £300) per square league. Messrs. Bell and others (new arrivals) have purchased adjoining lots at $1,250 Bol.

Probably no public stock in the world has gone up so prodigiously as the Cordoba provincial bonds, quoted last May at 45, and now worth 96! The Government hit on a capital expedient, receiving its own bonds in two-thirds payment for land, and hence the sudden rise in value.

We regret to learn that Admiral Elliott leaves this city to-morrow for Montevideo: his stay among us has been very brief, but we hope when the crisis passes at the Mount, he will reside for some time here, and find a pleasant reception both from the English residents and the high officers of the state. We forgot to congratulate the gallant admiral and his lady on their fortunate escape in the gale at Rio Janeyro.

Governor Saavedra has summoned the Chambers of this province to extraordinary sessions for the discussion of the following projects: Budget for 1865; Sale of 800 leagues of public lands; Prolongation of the Western railway to Chivilcoy; Law of Municipal elections for Buenos Ayres.

The great defeat of Saa turns out precisely as we anticipated. Borges retreated in order that Saa, might follow, as our colleagues say. But Borges when he had his men facing the wind could not get them to turn round. Saa and his men used their rebenques instead of swords, and the fellows who showed their backs out of sport, at last took to their heels in real earnest. Saa captured four muskets without flints, 80 horses and three men. Servando Gomez and Flores are looking at each other, but neither seemed inclined to fight: Flores is waiting for the Brazilian forces.

Four Italian war steamers are hourly expected in Montevideo. Sor. Barbolani is still the leading diplomatist in the Mount, and when his squadron arrives, President Aguirre expects a new Garibaldi will step forward and settle both Flores and the Brazilians.

Yesterday, we regret to hear, that some person was run over in the street right in front of the policia: we failed to get the name of the wounded man.

The harbour of Buenos Ayres presented yesterday an affiicting sight: over a dozen Brazilian war steamers left for the Uruguay to blockade the unfortunate Banda Oriental. Immediate operations will now be commenced, and some people think that next week the Brazilian will be the only flag in the Banda Oriental.

As there is great anxiety to know the extent of the race-course, we publish the following: Length of course, 2,125 yards; half round, 1,075 yards. The 'Belgrano' challenge has not yet been accepted.

To-day the interesting religious ceremony of a number of young ladies making their First Communion will take place at San Roque at the hour of 10 o'clock a.m. The attendance will be large.

We have been favored with seven photographs of the late solar eclipse, taken with most artistic elegance by the Fotografia of Mayo. Messrs. Jaeggli and Diavet have also furnished us with the report from their observatory which we will publish to-morrow. Both are on exhibition at this office, and well worth inspection.

A subscriber in Montevideo has sent us another proclamation of the great mah Flores. We have no room for such revolutionary trash, and would thank our friend to send such stuff to some of our colleagues.

Respecting the wool sales published yesterday as made in the Plaza Once, there appears to be some mistake, having been misinformed by parties who, we conceived, were deserving of credence. We have stricken these imaginary sales out of our weekly paper in order that our country friends may not be deceived.

President Mitre, we hear, will not leave for San Isidro before December. The Minister of Foreign Affairs, it is said, will shortly sojourn in Barracas. We learn, on high authority, that M. Elizalde is nearly as hard-worked as ourselves, and some of his friends suggest that he should make a trip with Mr. Lelong to recruit.

The Minister of War, it is rumored, is about to resign. Some split in the Cabinet, it appears, has occurred, and we should not be surprised to see our friend lay down the portfolio and resume the hammer.

THE MUNROE FOLLY.

The vain dream of Munroe, which a few years ago was regarded as the creed of America and the edict of her democracies, is now ridiculed by Europe, and set at nought by America herself. Within the last few years, whether owing to the increased commercial relations with Europe or the moral change effected by immigration we cannot say, but certain it is that now-a-days Europe has more to do with the internal and local affairs of America than heretofore.

We think the old proverb respecting the feasibility of making money and the difficulty of retaining it, might be travestied to advantage as regards the American republics—*Fools can gain their independence, but only wise men can keep it*—and really if we are to judge by the experience of the past we must arrive at the correctness of the adage.

Munroe was a man of great talent, but when he dictated to Europe, and told his fellow countrymen "*thus far and no farther shall Europe tread our soil*," he displayed his ignorance of the perishable nature of republican institutions, and his utter oblivion of the infinitesimal democracies which were spread like mushrooms over the Americas.

We well-remember when the Munroe doctrine was indorsed by ever American. Had Pinzon at that effervescent period dared to touch even a pound of guano, much less seize the Chinchas, he would have been chased round the world by the American clippers, brought in irons to New York, and either lodged in the Tombs or set up at Barnum's exhibition.

But although Munroe and his doctrine are dead, we confess we were unprepared for the conduct of the Peruvian Congress. We thought that if the Peruvians were destitute of patriotism, avarice at least would have fired them up to regain sixteen millions of Patacons per year, which the Spaniard had seized. We thought that if the sister republics refused aid, the Peruvians themselves would rise en masse and crush the Castilian invader with his three pigmy vessels. But nothing of the kind: the leading men of Peru, the first citizens of that Republic unanimously agree that their Government should and ought to make peace with Spain on any terms. Now as the Spanish treasury is not in the most flourishing condition, it is reasonable to suppose that her Catholic Majesty will conclude a peace with the Peruvians, acknowledge formally their independence, and very possibly send a Minister to Lima, on condition that the Chinchas change their name, and receive a Captain General as Governor. The Argentine, Chilian, Bolivian, Ecuadorian Presidents and all the other presidents of the South American democracies may find it convenient to think that Spain will never attempt to permanently hold, or colonize the Chinchas. But none save a South American politician can doubt the fact that before the year A.D., 1866, the treasury in Madrid will be overflowing with Chincha money.

These islands are, however, a long way off, and even Munroe himself if he was now living at 120 Calle San Martin would probably pursue the same line of conduct as President Mitre, because we are hardly yet able to keep our head over water, much less in a position to fight Spain on a foreign dunghill.

Munroe, as far as regards Peru, therefore, made a mistake. As to Mexico, we find that the doctrine has half ruined that country, because the unfortunate Mexicans like the bamboozled Danes kept on fighting firmly in the belief that Winfield Scott was crossing the mountains with an army of Munroists to their succor: again, therefore, we find Munroe at fault in Mexico.

Now there is a little spot adjoining a powerful South American empire where democracy has held sway for years, where republican blessings have grown like green weeds in the fertile soil of the pampas, where universal suffrage—the sacred heritage of freeman—was guarded and enjoyed. In that country the Munroe doctrine in all its purity was not only believed and adopted, but actually sworn to by the inhabitants. The Banda Oriental, the ruined Banda Oriental, is that spot.

President Mitre evidently has had some respect for the departed Munroe, for he stood up on a cane-bottom chair in the street, and addressed a crowd before his door, when the news of Pinzon's invasion arrived. Furthermore, he must have had a veneration for the visionary 12 months ago, when M. Doria and M. Becour got so unceremoniously shown the door, for offering to interfere. Munroe was then in the ascendant in the Government-house, but somehow of late President Mitre seems to have foresworn his doctrine; and very probably before the Montevidean empire is established, poor Munroe will be burnt in effigy in the plaza. In justice to the character of the North Americans, we must say that the rebellion in the States has been the death-blow to the Munroe doctrine. The North Americans are unable to enforce it, and the South Americans are too divided to carry it out; and thus it is that this Munroe doctrine, which was to have frightened all Europe from America, and prove the bulwark of American democracies, has only tended to create hopes which have never been realized, and weaken still further the foundations of South American Republics.

It will be urged that the Brazilian invasion is not a violation of the Munroe doctrine, but who can say that the throne of Montevideo is not destined for one of the new sons-in-law of Dom Pedro. For our part we regard it as singularly lucky for South America that the Munroe doctrine has proved an illusion, for unfortunately revolutions are so frequent in South America, and party animosity so deadly, these contending republicans would fight like Kilkenny cats if some of the foreign powers did not interfere.

We are told that the Munroe doctrine is the political religion of America from Canada to Cape Horn, yet nevertheless we find European influence increasing in America.

Mexico has an Austrian Emperor.

Ecuador is praying to be united to France.

Montevideo is asking Italian protection.

Chile is in danger of losing half its territory.

The Chincha Islands are a Spanish colony.

Bolivia is applying to France.

A few more years of civil war in South America, and on the ruins of delapitaded democracies will rise thrones for the junior members of every royal family in Continental Europe, and Munroe and his celebrated doctrine will be forgotten for ever.

"ERIN'S" TRIP TO CORDOVA.

To the Editors of the 'Standard.'

Gentlemen,

I always like quarrelling with a lady in the Spanish 'idioma,' because she cannot understand me, or I her, so we are equal, both have fair play. But it is beautiful—*is it not?*—to experience the loving anger of the dark-eyed, impulsive daughter of Old Spain, who, in the moment of passion, could kill you a thousand times, and as she kills, would try to bring you back to life with her sweetest and softest kisses. Dear M. G. and E. T. Mulhall, proprietors and editors of the 'Standard,' published each morning at 74 Calle Belgrano, tell me is it wrong to seek the society of beauty? if it is, I am a bad man, I am never happy away from her gentle influence. I love to impart the information of a long life, passed mostly in solitude—solitude, if such a thing there could be for me. There is no such thing as solitude: is there not always to be found in the mountain, the forest, or the boundless sea, is there not always to be found He and the works of His hands, which speak to you with a simple and yet a universal language, reminding you that although a worm, you are not alone and unheeded? Is there any solitude to be found by a man whose dream is woman, gold, wine? Tell me where to seek solitude—tell me where to cast off. If you can, I will give you all on earth that I possess: give me but one hour of oblivion, and "Erin" will call you omnipotent. In the remotest corners of the earth I have sought rest, but have not found it. The whisperer 'conscience,' that will not leave me, haunts my steps. The pistol on my table offers itself, but it is a cowardly resource. What would "Erin" say to her son if he entered her presence with the stamp of cowardice on his brow? No, I will battle still with the few years of life that may be given me, and will try to forget the past, and thus will approach the throne of my God saying "I am here a sinner."

Well, to resume my narrative. On the 10th of the past month, at three o'clock, we awoke to a sense of our situation and our splitting headaches. Maté, tea, cigars, and packing up our things, consumed an hour, when we started in a heavy rain to enter on the 'wild pampas,' but a few years ago the undisputed domain of the Indian, and where for leagues and leagues no sign of life is to be found; neither tree, animal, or water, naught but the boundless expanse of flat, worn grass; here we made the post of Cañada Parepa, 6 leagues, the water in the wells salt, afterwards the post of Tortugas, four leagues distant, the woman milking cows. We made a splendid breakfast of new milk, bread, and some of the good things we brought from Rosario. Here is the small stream, the Tortugas, the boundary of Sta. Fé and the province of Cordova; it is about ten yards across. It rises in the mountains west of Cordova and loses itself in the salt fens, some 100 miles north of Rosario, about the boundary of the two provinces. Its course may be taken altogether at 200 miles. Though I was unable exactly to find out its true source, yet I think I am not wrong in tracing it to the sierras west of Cordova, from where all the sweet waters of this part of Central America date their birth, and until impregnated by the scattered salt of the Andes are sweet to the taste. Here some years ago some revolutionary battle was fought (at least in a lengthy despatch was said to have been fought); however I understand that several throats were cut, and some cattle stolen and eaten belonging to the master of the post. The small bridge required here for the railway can be made in a month, at an expense of £200. Three leagues before reaching this post we ascended a rolling prairie, say twenty feet rise in a mile, the top flat and the descent to the river the same gradient: neither cutting nor filling is required for the railway. At four leagues more we made the post of Espinillo, at four more Liones, putting up for the night at Chacras, other four leagues in front. All these latter posts are surrounded by a strong breastwork and deep ditches, with a moveable bridge.

The Indians now, however, confine themselves to stealing a few cattle or horses, and never attack the posts. They are gradually disappearing altogether: in five years more they will be forgotten in these parts. We are now at Chacras, 36 leagues from Rosario, and taken as a whole, the Wheelwright concession is very valuable up to this spot, but the utter want of good water must be considered and taken as a drawback. Between this post and Cordova, a distance of 50 leagues, the concession is not worth a farthing, except to the speculator in land, &c. Our diligence crossed and re-crossed the railway route at almost every league from Rosario to Cordova, and as we were six days on the road, I had ample time to form an opinion on the lands: an opinion based on knowledge acquired after ten months passed mostly in the camps, and information which an inquiring mind will always be able to pick up from those it comes in contact with, from men whose lives have been passed on the camps of which knowledge is sought. Dear Editors, this is a very dry letter, but ask your readers to forgive old "Erin" for being a little, just a little beyond the manly last night, and in consequence rather dull this morning. Just ask the Señorita of the English Amateur Theatricals of the past month, how her head was on the following morning, and my friend, would you oblige me by taking the mote out of your eyes before you try to take out the beam in mine.

Yours,
ERIN.

NEWS FROM THE PROVINCES.

CORRIENTES.

We have files of the 'Progreso' to the 30th ult. A soldier on guard at the barracks stabbed his comrade in the thigh: the aggressor was drunk at the time, and has been placed under arrest. It seems he had some some spite against the wounded man, who is progressing favorably. The village of Bella Vista having petitioned the Legislature for a piece of waste ground to be sold in aid of the funds for building a church, this has been granted. The conclusion of the contract by Congress with Messrs. Smith, Knight and Co. for the railway through Entre Rios and Corrientes gave great satisfaction.

Major Desiderio Sosa had arrived, with the supposed intention of enlisting a battalion of the line in Corrientes. A young Italian named Antonio Varell was cleaning a pistol when it went off, lodging a bullet in his groin: Drs. Archer and Vidal attended him, extracting the ball, but he died on the following day. Several heavy falls of rain occurred after the 20th ult. A respectable old citizen named Juan Mantilla died on the 28th ult.

We read that the Government has engaged a number of Chaco Indians to serve as couriers for carrying the mails through the Gran Chaco to Salta. This is a great advantage, but we are surprised that the 'Progreso' engages beyond doubt to have a railway constructed through the Gran Chaco next year. The postal empresario is D. Vicente Saravia, who has concluded a contract with the Cacique Naponari and three others including an interpreter named Santiago Saravia.

Among the chapter of accidents is a youth who fell into a well in the Piaza Piso while drawing up a bucket of water: he was taken out dead. D. Jose Ignacio Benitez was assassinated on the 31st ult.

The theatrical company was playing La Mosquita Muerta and other pieces. The currency improved 4 per cent, being 240 to the doubloon, but the Chamber has resolved nothing about the bank-projects.

ROSARIO.

We have news to Friday morning:

The 'Cosmopolita,' speaking of the gold-discoveries in San Juan, attaches little importance to the fact, "as gold has been found there during the last 100 years, but not in sufficient abundance to pay expenses of working." Mr. Perkins has reason to be thankful for the kind reception his paper has met with, there being already 400 subscribers. Consul Hutchinson gave a grand party, at which all the pretty girls of Rosario danced until day-light. Mdme. Mollo was serenaded by the townsfolk on her arrival: in company with Sig. Celestino and two singers just come from Europe, she will give selections from Trovatore, Luisa Miller, Ernani and other operas. The diligence to San Luis was delayed some days at Morro for want of horses, after three days of heavy rain. The elections for Governor of Sta. Fe will come off soon, Sor. Oroño being the likely candidate. It is complained that in most of the robberies by Indians, of daily occurrence, there are several Christians (escaped criminals), and, instead of cattle, they now prefer stealing goods. The Central Argentine works are going steadily forward, the fifth mile of rails being now laid down: the bark Leines arrived from England on the 2nd inst. with a cargo of rails and machinery. For the first time in the history of Rosario four steamers entered that port in one day (Friday): the Pavon, Buenos Ayres and Marquis Olinda, and the tug Iron King towing two vessels with materials for the railway.

The mortality of Rosario during last month was 29 adults and 19 infants; of the former 10 were natives of the town, 2 foreigners, and the rest from the provinces; 7 had reached 60 years of age. This mortality corresponds to a population of 15,000 souls.

The latest news of San Juan gold is that a vein has been discovered at Castaño, which gives over 200 marks to the cajon. A correspondent says "it is no mistake: I have myself paid $70 Bolivian for a nugget in the possession of Sor. Moreno." There are already three law-suits about the mine.

The *Ferro-carril* says: D. Camilo Rojo has been installed Governor of San Juan, and named Messrs. Godoy

and Carril ministers. The only agitation is about the new gold-mines, which D. Antonio *Oro* claims on the part of Major Rickard as forming part of his property at Castaños.

The Mendoza papers mention an expected Indian invasion at Chillar.

In Cordoba the only news is a prorogation of the Chambers.

The Government of Santa Fé has suppressed its official paper 'La Verdad,' after an existence of 8 months.

The 'Rosario' mentions a serenade by the Club Pueblo on the evening of the 31st ult. The 'Cosmopolita' has a flattering remark about the 'Standard' packet-edition, which it says "is worthy of the first printing-office in London."

We read that the engineers are laying down the abutments of the bridge over the Carcarañá.

ENTRE RIOS.

We have the 'Porvenir' of Gualeguaychú to the 4th inst. The Brazilian gunboats search every vessel passing Paysandú which carries the Argentine flag: the foreign vessels are unmolested. D. Leandro Gomez has been named to succeed Col. Trillo as commander-in-chief north of Rio Negro. At Fray Bentos a rebel officer boarded the steamer Rio del Plata to receive the correspondence for Gen. Flores: he was armed to the teeth. At Gualeguaychú a new club has been formed, called Union Americana: the first ball will come off on Christmas night. On the 2nd inst., a dye-shop was broken open and robbed: after an hour the burglar was discovered, but in being conducted to prison he managed to escape from the police.

The 'Uruguay' of the 3rd inst. states that Messrs. Hector Varela and J. Lelong visited Concepcion in a pleasure trip with Captain Fidanza. General Francia is at present in that town. D. Urquiza junr. set out to take charge of the Department of Concordia. There is no truth in the rumours of military preparations by Gen. Urquiza.

The 'Litoral' of Paraná, 1st inst. has an article assuring us of the peaceable intentions of General Urquiza: another on the trade of Paraná, stating its annual exports at a million hard dols per annum.

SALTA.

We have the 'Actualidad' to the 8th ult. The mutiny which was forestalled was a serious matter—to kill the Governor, Ministér, and Colonel, the reward being $100 per man: in case of failure, horses were to be in readiness to procure their escape. The conspirators were deserters from the 8th Battalion, but Major Alfaro is not implicated. The new organ was put up in the church of San Francisco on the 8th: it was constructed by an Italian, named Colombati. The Rogers American Circus Company were playing at Salta with great success.

SANTIAGO DEL ESTERO.

The Indians passed Monte Aguará and invaded the province to avenge the outrages on the Franciscan Fathers. Gen. Antonino Taboada with a body of troops set out to meet them, and routed them with a great loss, killing 30 and taking prisoners 75 women and children.

ROBBERY IN THE CIRCULO LITERARIO.

The Secretaries of our Literary Club have published a notice to the effect hat several books and other articles were stolen from the library of the institute on Monday evening last, during the conference. Members are cautioned from procuring entrances for any but confidential friends, in order to guard against the repetition of the outrage.

The theft is the more to be regretted since some splendid works have been spoiled by taking one of the volumes, which seems to indicate a malice prot pense, and we almost fancy the articles have been stolen not for their value, but from spite of the institution. We applaud the notion of publishing the name of the malfefactor (when discovered) for one month in the papers, and as the volumes stolen are rare in Buenos Ayres it may be easy for an active "vigilante" to discover them.

It is a pity that the ruffian in question, whoever he be, could not repress his *kleptomania* when in such polite society. He may be another Eugene Aram whose thirst for science, is his plea for committing such a crime.

THE MUSICAL ALBUM.

The first and second numbers of the musical album, 'Ruiseñor del Plata,' have appeared. The pieces selected from the operas of 'Norma' and 'Elisir de Amor,' need no comment, as Bellini and Donizetti have long since immortalized their names. The 'Mazurka,' by the editor, Don José Balmoña, is worthy of notice, being simple and pretty.

We prophecy for the 'Ruiseñor del Plata' a wide-spread popularity, and have no doubt of its patronage, not only amongst the 'bellas Porteñas,' to whom it is dedicated, but with all lovers of music. We would suggest a few of the principal airs in that much and deservedly admired opera, 'Marta.'

DECAY OF IRELAND.

The committee emigration gives sad statistics respecting Ireland. In the year 1861 no less than 64,309 persons left Ireland. In 1862 the emigration was 70,100; in 1863, 117,800; and in the present year if the emigration continues at the same ratio of the first three months, it will amount to over 156,000. During a period of 10 years from 1850 to 1860, the emigration was 1,190,000, and at the same time the number of marriages greatly diminished, and there was no proportion between the births and deaths.

HURRAH FOR THE DIGGINGS!

CALIFORNIA IN SAN JUAN.

The *Zonda* of San Juan says the Castaño Mine is giving a fabulous amount of gold, and causing the greatest excitement. Samples were refined at the Hilario works, giving 325lb. of gold per cajon.

Another sample gave *a thousand ounces* pure gold per cajon. The mine belongs to Major Rickard, beyond all doubt.

5,000 National Bonds at 38.

Specie suffered a severe decline today, owing to the new laws having been passed at last. It was known on 'Change that the National Government had arranged to-day with the bank, and that next week nine millions of paper money are to be burnt, and on the 4th December nine millions more, after which two millions per month will be regularly burnt, the National Government transferring to the bank the Bonds at 75 per cent. in lieu.

This being Saturday there was not much done in the plaza, but wool keeps coming in from the country every hour.

We heard of only the following sales:

3000 ar. fine mestiza wool from estancia Chica of Mr. Bell at $104.

200 ar. fine wool belonging to Mr. Rummell at $108.

750 ar. do. of Mr. White, Guardia Monte, $95.

1000 ar. do. of Mr. Domingo Martinez, Areco at $90.

The sale of Messrs. Prange's wool in the Banda Oriental will be interesting to our readers. Their estancia is one of the finest sheep establishments in South America, and what with sale of rams, skins, wool, &c., yields an income of nearly £40,000 sterling per annum, without at all taking into account the gradual increase in the flocks each season. As we think it would interest our readers to know the price at which the wool of this magnificent estancia, was sold we have been watching to hear of the sale; yesterday it was effected at the very high price of five patacons two reales per arobe delivered at the estancia: the buyer is a Frenchman. We understand that the amount of the clip this year reaches nineteen thousand arrobes, of which fourteen thousand belong to the wealthy proprietors and five thousand to the medianeros, &c.

Rams—Rams—Rams.

The undersigned, in calling attention to his large and superior stock of Rams and Breeding Sheep, begs to inform his Friends in the Camp that he has on hands a splendid collection of animals, from Three Hundred to Five Thousand Dollars, inc., and is confident that each in its class will compete with anything in the province.

In the "Rambouillet type" will be found some fine specimens of the pure blood, besides crossings from the "Merino," possessing the size, shape, and length of staple for which this class is so much admired.

In the "Negrettes" he has also some beautiful animals of pure blood, as likewise the "Negrette" drawn from the "fine Merino," a "Cria" remarkable for compact shape and close heavy wool.

In addition to the above he wishes to draw especial attention to his celebrated Argentine breed, between the "Rambouillet" and "Negretto Ewe," and which, after seven years' experience, he can fully recommend as combining size and shape with length and weight of wool—qualities so anxiously looked for by all experienced sheep-farmers, and which have given so much satisfaction to those who have already purchased of this class. In buying the above in half three-quarter, and pure blood, already acclimatised, there is an immense advantage, as Rams reared in this country are not so delicate and withstand the winter better than imported animals, besides being sold much cheaper, and only requiring ordinary care.

He can likewise supply the above classes in Ewes, either picked or by the hundred, and wishes to remark that all have been in prime condition throughout the past summer.

HEALTH FOR THE INVALID

BY

HOLLOWAY'S PILLS.

LOSS OF APPETITE—LOSS OF STRENGTH—LOSS OF HEALTH.

The marvellous effect of this fine medicine upon the system is such as to immediately rally all the vital functions, the appetite is soon restored, a full flow of spirits quickly follows, the body becomes immensely invigorated with a certainty of restored health: fresh air and a little exercise are necessary to bring about a permanent state of things. Holloway's Pills impart tone and energy to the most delicate constitutions, and in a manner as to astonish all who take them. By their extraordinary virtues they have obtained the large t sale of any medicine in the world.

HEAD, LUNGS, AND STOMACH.

Look to the regularity of the functions of these foundations of vitality. Holloway's Pills restore to order the slightest departure from the proper action, and therefore may be considered as the regulators of the main spring of human life. Apoplexy can always be prevented if the proper action of the bowels be attended to, which this famous medicine never fails to accomplish. Disorders of the head and heart often terminate suddenly and fatally from obstructions in the system, which might generally be prevented by taking small and regular doses of this fine corrective.

FEMALE DISORDERS.

No medicine can be so infallibly relied upon for overcoming all obstructions as these Pills. They never fail to restore a healthy action throughout the system. The printed instructions will enable all to correct the first symptoms of disease, and avert many serious maladies. Holloway's Pills soon change the sickly and sallow complexion, thus renewing the bloom of health. To females entering into womanhood, or at the turn of life, these Pills will be found invaluable. They should be taken two or three times a week as a safeguard against dropsy, headaches, palpitations of the heart, and all nervous affections, so distressing at certain periods.

SICK HEADACHE, INDIGESTION OR FOUL STOMACH, AND DISORDERED LIVER.

In such a deranged state of health the food is decomposed instead of being digested, and proves poisonous rather than nutritious. This derangement can be at once set right by a course of these purifying and digestive Pills, which have acquired for themselves an imperishable fame for the mastery they have constantly exercised over the digestive organs. Holloway's Pills increase the appetite, regulate the liver, repress biliousness, healthily stimulate the kidneys, and move the bowels in a more wholesome and natural manner than any other medicine.

DISORDERS INCIDENTAL TO CHILDREN.

The liver and stomach of children are, from many causes, often out of order, as they are allowed to eat many things that would disagree with their parents, hence their blood becomes impure, and liable to take any disease that is prevalent, and that in the worst form. One Pill, reduced to a powder, and put into a little water, given occasionally to children of twelve months old, and to those of three or four years, three Pills, and to others of seven years of age, four Pills—will always make children look blooming and healthy. Seventy-five out of every hundred do not reach the age of maturity. Holloway's Pills would not only preserve their health, but save the lives of thousands. Many people foolishly think that children only require a little medicine twice a year.

Holloway's Pills are the best remedy known in the world for the following Diseases:—

Ague	Female Irregularities	Rheumatism
Asthma	Fevers of all kinds	Retention of Urine
Bilious Complaints	Fits	Scrofula, or King's Evil
Blotches on the Skin	Gout	Sore throats
Bowel Complaints	Head-ache	Stone and Gravel
Colics	Indigestion	Secondary Symptoms
Constipation of the Bowels	Inflammation	Tic-Douloureux
Consumption	Jaundice	Tumours
Debility	Liver Complaints	Ulcers
Dropsy	Lumbago	Venereal Affections
Dysentery	Piles	Worms of all kinds
Erysipelas		Weakness from whatever cause.

Sold at the Establishment of Professor Holloway, 244, Strand, (near Temple Bar,) London and by all respectable Druggists and dealers in Medicine throughout the civilized world, at the following prices:—1s. 1½d., 2s. 9d., 4s. 6d., 11s., 22s., and 33s. each Pot.

* * There is a considerable saving by taking the large sizes

N. B.—Direction to the guidance of patients in every disorder are affixed to each Pot, and can be had in any language, even in Chinese.

Holloway's Ointment and Pills

Have, over and over again, proved the best friends to persons afflicted with ulcerations, bad legs, sores, abscesses, fistulas, and other painful and complicated complaints. Printed and very plain directions for the application of the Ointment are wrapped around each pot. Holloway's alterative Pills should be taken throughout the progress of the cure, to maintain the blood in a state of perfect purity, and to prevent the health of the whole body being jeopardised by the local ailment: bad legs, old sore's great grievance, are thus readily cured, without confining the patient to bed, or withdrawing from him the nutritious diet and generous support so imperatively demanded when weakening disease attack advanced years or constitutions evincing premature decrepitude.

SAVINGS BANK.

BANK MAUA AND CO.

No. 103 Calle de Cangallo,
BUENOS AYRES.

The immense advantages of Accounts Current are now so generally felt and appreciated in the two great emporiums of the River Plate, Montevideo and Buenos Ayres, that there are very few Merchants who fail to keep one at the bank in which they place the most confidence.

The Bank of Mauá and Co. in Montevideo has already provided for the working classes in that city a safe and profitable depositary for their savings.

The sums deposited in that most important institution are daily increasing, and already reach a very large amount.

These advantages have not hitherto been enjoyed in this city by an immense number of clerks, artisans, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need, sickness, or old age, instead of spending them in the immoral gambling, in lotteries, and other frivolities.

The Bank of Mauá and Co. of this city, following the noble example of their firm in Montevideo, now offer the same facilities in this city, and will open a Savings Bank at No. 103 Calle Cangallo, from Nine a.m till Three p.m on Week Days, and on Sundays and Holidays from Ten a.m. to Twelve m., for the reception of the savings of the classes already mentioned.

The Bank will deliver to each depositor a pass book, in which will be entered the amount deposited and withdrawn.

The depositor is permitted at any time to withdraw the whole or part of the sum deposited; in the former case the interest will be calculated up to date.

The Bank of Mauá and Co. is sufficiently known to the Public by the benefit derived from the course of its operations, which are regulated on the strictest and soundest principles, and always directed to promote the general welfare.

The bank of Mauá and Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighbourhood.

Buenos Ayres, September 19, 1868.

P.p. Mauá and Co.
WILLIAM LESLIE

CONDITIONS.

First—The Bank receives at interest any sum from Twenty-five Dollars currency Silver Dollar upwards.

Second—The interest allowed is six per cent. (6 p %) per annum, which is liquidated ever six months.

Third—The depositors can at any time retire the whole or part of the money deposited.

Fourth—Once the money deposited exceeds twenty-five thousand dollars currency, or one thousand dollars silver, the depositor, if he wishes, can open an account current, according to the rules established by the Bank.

Fifth—In case the depositor loses his pass book, it can be replaced by another on paying twelve dollars currency, and advertising the loss in the public newspapers.

ELLWOOD'S PATENT AIR-CHAMBER HATS

CAUTION.—The Patentees having established the validity of their Patent, in an action tried on the 20th and 21st days of June instant, in the Court of Common Pleas at Westminster, before Lord Chief Justice Erle and a Special Jury, in which Ellwood and another, of No. 24 Great Charlotte-st., Blackfriars Road, in the Borough of Southwark Wholesale Hat Manufacturers, were Plaintiffs; and Christy and others, of No. 35 Gracechurch-street, in the City of London, also Wholesale Hat Manufacturers, were Defendants; and the Jury having by their verdict found that the above-named Defendants had infringed the Plaintiffs' Patent, and that the invention was new in England and in India at the date of the Letters Patent—We, the above-named Plaintiffs, do hereby give notice to all Manufacturers, Dealers in, and Sellers of Hats, Caps, or Helmets, that we shall proceed by suit in Chancery against all persons so manufacturing, dealing in, or selling Hats, Caps, or Helmets, constructed on the principle of "Ellwood's Patent Air Chamber Hat," unless the previous consent of the Patentees be obtained, at the same time reserving to ourselves the right of taking proceedings against prior infringers.

BENSON'S WATCHES AND CLOCKS.

Watch and Clock Maker, by Special Appointment, to His Royal Highness The Prince of Wales.

Opinions of the London Press upon Benson's Great Clock and Watches in the Exhibition, 1862.

"As a sample of English clock work on a large scale, the works of this are probably the finest finished that have ever been seen in this country. No Chronometer could be fitted with more perfectness or carefully adjusted mechanism."—Times, June 11 1862.

"A triumph of ingenuity."—Telegraph March 11 1862.

"A more splendid and exquisitely finished piece of mechanism we have never seen." Standard, June 17 1862.

"Some of them are of great beauty and if the English watch-trade only follow up with the same spirit and success this first attempt to compete with foreigners in decorative watches, there seems to be no reason why we should not get the trade entirely into our own hands."—Times, June 23, 1862.

"Ranged around the base of the clock were the Watches which Mr. Benson exhibited, and which have been universally admired for the beauty and elegance of the designs engraved upon them. The movements are of the finest quality which the art of horology is at present capable of producing. The clock and watches were objects of great attraction, and well repaid the trouble of an inspection."—Illustrated London News, November 8, 1862.
